OBJECTIVE

A skilled and motivated front end developer with 5 years of professional experience focusing on React based applications. Proficient with React, Javascript, GraphQL, Apollo-Client. Experience in building and optimizing web application for enterprise platform with good understanding of SDLC and agile methodologies. Looking forward to adding value through my passion and expertise.

EXPERIENCE

Pune
Nov 2021 - Present

Associate

Cognizant Technology Solutions

- Contributed in development of front end application for prominent client projects.
- Implemented dynamic features using React.js, improving the interactivity and responsiveness of the website.
- Integrated API's using Apollo GraphQL, enabling efficient data fetching.
- Maintained a robust test suite using Jest, achieving over 90% code coverage for reliability and performance assurance.
- Implemented a micro frontend architecture, enhancing code modularity and reducing complexity across various components for streamlined development and improved maintainability.
- Collaborated with cross-functional teams to ensure timely delivery of the project.
- Created visually appealing and responsive UI components using SCSS and Figma.
- Ensured adherence to web accessibility standards, making the platform accessible to a broader range of users.
- Actively participated in Agile ceremonies, contributing to sprint planning, backlog grooming, and retro for quality assurance.
- Utilized Git for version control and collaborated with cross-functional teams through GitLab, Jira etc.
- Leveraged Jenkins CI/CD pipelines to automate builds and deployments for smoother integration.

Tech Stack: React, Javascript, Typescript, HTML, CSS/SCSS, GraphQL, Apollo Client, Micro Frontend, Jest, Storybook, Git, Jira, Sonar, Jenkins, Json, Agile, Figma, Accessibility

pune
Sep 2019 - Nov 2021

Software Engineer

Cybage Softwares Pvt. Ltd.

- Actively contributed to the design and development of front-end applications, utilizing React.js to build highly interactive and responsive interfaces.
- Integrated RESTful APIs to establish seamless data flow between the front-end and back-end services.
- Implemented effective state management strategies to control data flow using Redux.
- Identified and resolved critical application issues impacting user experience and performance. Utilized Chrome DevTools and React DevTools to debug and optimize code and enhanced application stability.
- Designed user friendly web pages using the Ant Design CSS library. Customized Ant Design components to align with brand guidelines, ensuring a polished and consistent look across the application.
- Ensured that the web application was accessible and responsive by implementing adaptive layouts and applying web accessibility standards (WCAG).

Tech Stack: React, Javascript, REST, HTML, CSS, Redux, Context API, AntD, Axios, Git, Jira, Sonar, Json, Agile, Accessibility
